

The Miracle of BioTape™

“I have suffered with sciatica and degenerative disease for more than 40 years and this is the first time I have had anything to give me complete relief.”

—Barbara Fuller

“I have four herniated discs and spinal stenosis and was unable to do so many things. My back pain is so much better since I began using the tape that I am leading a normal life. Thanks again. You cannot imagine how grateful I am to you.”

—Jacki Carlish

“When I first received the tape I had just injured my ankle severely and had been unable to walk at all at first and very little even after several weeks of treatment. The day I put your Biotape™ on the pain decreased at least 80% within about a minute and I was able to walk about one mile the next day. After that it felt and functioned like nothing ever happened.”

—Dr. Paul E. Jondle

“I took one strip and placed it vertically as shown in the directions and then the piece across my “dimples” (lower back). I stood there, not believing what I was **not feeling**. Thirty years of suffering GONE.”

—Richard A. Purdy

“After suffering with lower back pain and radiating leg pain for 30 years, and finding myself becoming worse as I age, I am free of leg and knee pain and most lower back pain after 24 hours with the Biotape™. I received relief within a few minutes but I find greater relief with continued use...”

—Rosemary Stabrawa

What Doctors and Health Care Professionals are Saying

“I continue to be astonished at how dramatically and completely Darrell can get rid of severe pain. I have seen with my own eyes thousands of people becoming completely pain free when they thought they would have to live with pain for the rest of their lives.”

—Dennis W. Remington, M.D., P.C.

“Since I began using Biotape™ five years ago I would say that it gives great results 90% of the time. I have sent it home with many patients with the instruction to apply it where it hurts! It always works within a few minutes to an hour and usually within a few days the disability is gone.”

—John E. Gambee, M.D.

“I have seen Darrell Stoddard miraculously relieve difficult-to-treat pain in many of my patients and hundreds of others in just a few minutes and without medicine. His theories concerning pain-relief, though controversial in the medical community, have proven effective over and over again.”

—Judith S. Moore, D.O.

“Darrell Stoddard presents information that when accepted and implemented will change the way modern medicine treats pain. Everyone suffering from pain will benefit.”

—Kent Pendleton, Health Educator

I have seen Darrell Stoddard relieve chronic intractable pain in hundreds of patients – patients orthodox medicine could not help.

—Dennis Harper, D.O.
